“ To adopt a result oriented work culture, to fulfill customer needs in terms of cost, quality and delivery by enhancing effectiveness of people and plant equipment safety for achieving zero losses and to become profit marking organization, by continuous improvement for effectiveness of Quality Management Systems through team work, training and focused on action and results.”

Wire Harness

A group of wires, shields, cables, or cable assemblies, or any combination of these, all insulated and properly terminated to connectors, terminal lugs, or other suitable devices and mechanically held together by ties, straps, clamps, insulating jacket, or other means so that it can be installed as a single unit for the interconnection of two or more electrical or electronic equipments. A cable that is a complete unit ready for installation in a vehicle is considered a wiring harness
